

**QUICK REFERENCE GUIDE****To turn the unit on:**

Flip the on/off switch to the on (1) position. The LED will flash green twice.

**To answer a call or transfer a call from phone to earpiece:**

Press the answer/end button once.

**To end a call:**

Briefly press down the multi-function control button once or terminate the call from your cellular phone.

**To adjust volume:**

To increase the volume, press the volume up (+) button for each incremental level. To decrease the volume, press the volume down (–) for each incremental level.

**To turn the headset off:**

Flip the on/off switch to the off (0) position. The unit will instantly switch off.

**To turn Bluetooth Adapter on:**

Press on/off button until the LED flashes green twice. Unit is on and will flash green at intervals.

**To turn Bluetooth Adapter off:**

Press on/off button until the LED is a solid green. Unit is now off and LED will stay off.

\* If your Bluetooth Adapter and cell phone are "On" and within range of each other, you can make and receive calls with the headset.
